Career Objective

Dynamic **Python and Flutter Developer Intern**, adept at enhancing application performance through optimized algorithms, responsive UI, and custom libraries. Demonstrated strong problem-solving skills while maintaining comprehensive documentation and improving code quality. Proficient in **Python, Dart, SQL**, and version control with GitHub, ensuring efficient workflows and maintainability.

Education

Bachelor of Technology in Electronics and Communication Engineering

Sree Chaitanya College Of Engineering, Karimnagar

2020 – 2024

Technical Skills

- **Programming Languages:** Python, Dart
 - **App Development:** Flutter (Basic UI & Navigation, State Management)
 - **Web Development:** HTML, CSS
 - **Databases:** SQL
 - **Tools & Version Control:** Git, VS Code
 - **Others:** Problem-Solving & Analytical Thinking
-

Work History

Sai Ganesh - *Python Developer Intern*

01/2025 -03/2025

Hyderabad, India

- Implemented custom Python libraries to simplify complex workflows and improve maintainability.
- Maintained comprehensive documentation of code changes, bug fixes, feature additions, making it easier for future developers to understand the system's architecture efficiently.
- Optimized application performance with efficient algorithms and data structures.
- Improved code quality by implementing rigorous testing and debugging processes.

Projects

1. Tourism Website (Static Project)

Description:

Developed a static tourism website using HTML and CSS to showcase popular destinations, cultural highlights, and travel information. The site features a clean, responsive design with intuitive navigation, ensuring an engaging user experience across devices.

Key Features:

- CSS styling for typography, colors and layout consistency.
- Contact section with structured form design.

Technologies Used:

- HTML5, CSS3

2. MyExpense – Personal Finance Tracker (Mobile App)

Description:

Developed a mobile app using Flutter & Dart to help users manage daily expenses and monitor savings goals.

Key Features:

- Implemented category-wise tracking, charts for insights, and persistent local storage.
- Integrated Google Firebase for authentication and cloud backup.
- Inspired by real Play Store apps like *Wallet* and *Money Manager*.

Technologies: Flutter, Dart, Firebase

Declaration

I hereby declare that the information provided above is true to the best of my knowledge.

Place: Karimnagar, India
